Wouldn't a smoke taste good after a hard day of work in the trenches? Don't imagine that the fellows in the trenches simply sit in there and wait for a German to come along. There is as much industry right at the bottom of the six foot trench as there is in a coal mine. Positions are always changing. They fight as much with picks and shovels as they do with guns.

### UNFIT FOR PUBLIC SERVICE

Lafollette, Bryan, Butch McDevitt and Czar Nicholas.

### PEACE

The peace plan laid down by the Pope is indeed meritorious and will have due consideration in the council of nations. Coming, as it does, from one whose life is consecrated to Christian ideals and whose interest is centered in spreading the "peace on earth and good will towards men" doctrine, it will be treated with all due respect and that consideration which its sincerity demands. The text of the plan has not yet been made public and really little is known as to the detail of the proposal. Thus far there has been no mention of what part the Kaiser is to play in the plan and this is the point that all are eagerly watching. While there is much discussion on the subject or rather on the different subjects of the proposal, Americans will demand that no peace be made that does not carry with it the abdication of Kaiser William, the arch fiend who is directly responsible for the whole affair. At any rate, let us hope that the proposal does not get into Congress at this time. Congress would debate on it for six months and meanwhile France and England would suffer and our interests be jeopardized.

### RETRIBUTION

Whether you are pleased to call it poetic justice or righteous retribution, the banishment of the former Czar of all the Russias and his family to darkest Siberia is one of the most striking incidents of the war. He and his predecessors sent thousands upon thousands of men, women and children on that dreadful journey so graphically described by Tolstoi, to eke out a miserable existence on the most barren, wind-swept steppes of his dominions. In the majority of instances the alleged offense of the victims was political, and in many cases no offense whatever was committed, the arrest and deportation being the result of bureaucratic zeal to curry favor with the imperial cabal. What must be the reflections of the fallen potentate? It may be, however, that this dramatic act will tend to solidify the heterogeneous mass of revolutionists who having seized the torch of political liberty are in danger of perverting it to deeds of unbridled license or again plunging themselves into darkness. One cannot help wondering whether the All Highest in Berlin does not reflect upon the fate of a fellow-autocrat with some misgivings. And one can scarcely repress the hope that the Kaiser and his heirs might be given opportunity under conditions similar to those surrounding the ex-Czar for reviewing Prussian crimes of the past three years. Then indeed would the world be ready for negotiations for permanent peace.

### COUNTY FAIR NOTES

Arrangements have just been completed for canning demonstrations at county fair.

Kearney, of the county Fair, has made the necessary arrangements in connection with State College.

A lady will be sent from the college to give demonstrations of the

old pack plan for canning fruits and vegetables on the Fair grounds Wednesday and Thursday, Sept. 1 and 2, 1917 from 10 to 12 a. m.

Word was received today to the effect that the aviator who was to have been here for the Fair has fallen and sustained serious injuries. The Fair management expect, however, to have another man take his place so that there is little danger of losing this popular feature this year.

### Any Boy Will Be Started Right as Far as His Clothes Are Concerned If He Is in One of These Suits

Just a couple of weeks and the boys all around will be starting their new school year. Of exceptional interest to parents will be the unusually low-priced boys' suits that we are offering just in the nick of time.

### PARENTS WILL SAVE MONEY

Especially if there are several lads to be fitted out at this time. The boys themselves, who have been working for their own money to buy their clothes will appreciate the savings to be made at this time.

### FOR THE SMALLER CHAPS

Three to six years old have a number of suits. Knicker trousers lined and pockets enough to delight any boy's heart.

**\$1.69 to \$2.48**

Blue serge in sizes three to six years old. Lined knicker trousers. A good piece of goods.

**\$3.95**

### ASTHEY GET OLDER

For the fellows older—six to 16 years—we have some exceptionally good ones. Blue serges and mixtures. Lined knickers and built to stand hard wear.

**\$3.48, \$3.95, \$4.48**

### SPECIAL SERGE

This is positively all wool serge. Will hold its color and will be wearing when lots of the same priced suits from other stores have been thrown away. Sizes run from 10 to 18 years.

**\$6.95**

### 200 PAIRS MEN'S LEATHER GLOVES

## SOLDIERS' LETTERS

Gettysburg, Pa.  
August 11th, 1917

Esteemed friend George H. Donly  
This Saturday evening gives me the time and pleasure to write you a short letter. I am well and enjoying myself in every respect, excepting my left arm near the shoulder. I had to take my fifth inoculation today. It is anything but pleasant. I have one more to get yet. Sometimes it is so bad with some of the fellows that they have to go in the hospital ward for two or three days. It has not been that bad with me yet, as I have not lost any time from my duty in any way whatever. I guess I am in luck so to speak. I guess the fruits of the good life are coming my way. Sometimes it is hard to gain the victory but I have never fallen in the past before me. All is required of me is to do my bit, and do it in the way it should be done. I am sure if anybody here in Gettysburg makes a failure of his duty in his great time of national and religious duty he fails only because he has no desire for anything ahead. This evening I was in the Lutheran church and also the room they have provided for the fellows in khaki. There is just so many places of these I mention here, that it is rather a perplexing problem for one to decide which one to go to to do his letter writing and also to enjoy the evening as nearly all have a library, newspapers and all kinds of good games, also a Victrola and a piano. Nearly every evening there is a jolly good time for all who care to go. Everything is free. Mostly some ladies there too, they are very good to all of us. They provide lots of music and singing, also at our camp hospital. We have a band concert quite often. It is a hard matter for one to get homesick here. I sure am satisfied to make the best of it, until God in his own good time brings peace to all nations.

Well George, I sure did enjoy my trip home. Just came in time, for since I came home there has been placed on our camp bulletin board notices stating that no passes above forty-eight hours would be given. I can if I wish, come home over Sunday. But I would have to leave on the two o'clock Sunday train so I think I will wait a while and then I can get a furlow as anything over forty-eight hours is considered a furlow and to get a furlow it must go through the general's office. If he so desires he will grant from ten to thirty days. But of course they are much harder to get. But he always looks up ones for us, as to his character and conduct if they are O. K he possibly will grant him a furlow. I should worry about my marks. If I make them good as I go, I think in a short while I will surprise some of my home folks as I am expecting another promotion in a few weeks. If it comes I will let you know of it. Today I had charge of the diet kitchen. I prepared the cats for nineteen officers and also made ready the diets for the hospital patients. There is just two of us men who cook in the diet kitchen. Mostly one of us is off duty while the other is cooking. We have a mess sergeant who gives us the menu and then it is up to us to do the rest, and furthermore it must be on time. I expect to go to Rev. Oyler's church on Sunday morning also to S. S. in the evening. I am planning to go to the Lutheran church. I like to be reasonable and go to all of the different churches I can while the chance is mine.

I hope all of you folks up in Clearfield will at least think of me fellows who have enlisted for we all loved our homes and our town just the same as those of you who still remain there. Perhaps some day we will all be back home again.

Well George, it is now 8 p. m. and I want to go up street just one square to the Presbyterian rest room for an hour or so to enjoy some games and music, so I will close hoping to get a big fat letter from you in return for this one. Give my best regards to all.

Respectfully yours,  
Oscar W. Gearhart

## GLASS OF SALTS CLEANS KIDNEYS

If your Back hurts or Bladder bothers you, drink lots of water.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours the ystrain from it 50 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

The Rowles Reunion, which is held annually, will be held two weeks from Saturday, on Sept. 1st, at Oanta. On account of weather conditions there has not been a good turn out the last few years, so please do not forget to come. A good chance to see your old friends.

## News of the Day Culled From Various Sources

Enabling Our Readers to Keep in Touch With The Outside World

## EX-CZAR AND FAMILY ARE SENT INTO EXILE

Destination Reported to be Siberia. Petrograd, Aug. 15.—Nicholas Romanoff, the deposed Russian Emperor and the members of his family were spirited away under circumstances of extreme mystery early yesterday morning from Tsarskoe-Selo to a destination which the provisional government firmly refuses to reveal.

The semi-official Russian news agency announced last night however, that it was reported the former Czar and his family were being transported to Tobolsk, Siberia.

On one except the local military and officials, especially sent from Petrograd witnessed the departure, and according to a statement made by the Associated Press by N. V. Nekrasoff, vice president of the Council of Ministers, the account published in the only newspaper which reported the departure was imaginary.

It appears that the plan was to remove Nicholas before dawn, but the train arrived at Tsarskoe-Selo several hours late. Instead of the gorgeous imperial train in which Nicholas was taken to Tsarskoe-Selo from Mohilev in March, an ordinary train composed of three sleeping cars, a dining car and several third-class coaches was sent. A second train was assigned to take the baggage and servants, fifty of whom accompanied the ex-Emperor and his family into exile.

Nicholas Appears Depressed. Nicholas was very depressed in appearance, but ex-Emperor Alexandra who was seen walking for the first time in months, seemed lively and pleased at the prospect of a change in surroundings.

In view of the need for special precautions the guard between the palace and railroad station was not composed of any single unit, but of delegations of eleven trusted men from each battalion of the Tsarskoe-Selo garrisons.

An hour after the train arrived Nicholas appeared on the steps of the palace dressed in a colonel's uniform with a khaki blouse and no decorations. He entered an automobile, accompanied by Prince Dolgoroukoff and Count Beckendorff, former court marshal who thus far have shared his captivity. They were followed by the former Empress Alexandra, who was accompanied by Countess Naryshkin, her close friend and former lady of the court all the four grand duchesses with their maids of honor, and finally by Alexis, the former heir to the throne, at whose side was the gigantic sailor "Derevenko" the protector of Alexis since his birth and his constant companion.

## DECLINE IN SINKING OF SHIPS OF BRITISH IN WEEK

London, Aug. 15.—A falling off in British tonnage sunk last week by mines or submarines is indicated in the weekly admiralty statement made public tonight. Fourteen vessels of 1,600 tons and over were sent to the bottom, as against 21 the previous week.

Two vessels of less than 1,600 tons were sunk last week, the same number reported the previous week. Three fishing boats met with disaster last week.

The admiralty statement follows: Arrivals of all nationalities, 2,776 sailings, 2,866.

British merchantmen sunk by mines or submarines over 1,600 tons, including one previously, 14; under 1,600 tons, including one previously, two.

British merchantmen, unsuccessful ly attacked, including five previously, 13.

British fishermen sunk, three.

## GOMPERS CAN'T SEE PEACE ON PLAN MADE BY POPE

New York, Aug. 15.—Samuel Gompers, president of the American Federation of Labor and member of the advisory commission of the National Council of Defense, says the terms of peace proposed by Pope Benedict cannot be endorsed by organized workmen because proposals from the Vatican for ending the war do not provide for the elimination of "Kaiserism" and the establishment of "Kaiserism" and the establishment of world democracy.

"Anything the Pope says must not be seriously considered by the men of labor," said Mr. Gompers today. "The proposals made by the Pope for world peace contain nothing which can be considered as foundations for permanent peace. There is nothing in the proposals that would insure he people of the world against a recurrence of this terrible war."

## Few Drops on a Corn or Callus

Instantly stops pain and they lift right off with fingers.

This tiny bottle holds the wonder of wonders. It contains an almost magical drug called freezone. It is a compound made from ether.

Apply a few drops of this freezone upon a tender, aching corn or a hardened callus. Instantly the soreness disappears and shortly you will find the corn or callus so shriveled and loose that you just lift it off with the fingers. It doesn't hurt one particle. You feel no pain or soreness when applying freezone or afterwards. It doesn't even irritate the skin.

Just ask in any drug store for a small bottle of freezone. This will cost but a few cents but will positively rid your poor, suffering feet of every hard corn, soft corn, or corn between the toes, or the tough calluses on bottom of feet.

Women! Keep a tiny bottle on the dresser and never let a corn ache twice.

## School for Soldiers

(Continued from Page One)

excellent methods of developing the skill, strength, endurance, grace, courage and self-reliance that every soldier needs.

There are some simple rules of eating and living, which all of us should follow regularly. They will be especially helpful to you if you put them into practice in preparing for camp life.

Perhaps the most important of these rules is to use no alcohol of any kind.

If you have been in the habit of smoking immoderately, cut down; get your wind, your nerves and your digestion into the best possible condition.

Eat and drink moderately. Chew your food well. It is advisable however, to drink a great deal of cool (not cold) water between meals. Don't eat between meals.

Keep away from soda fountains and soft drink stands. Learn to enjoy simple, nourishing food.

Accustom yourself to regular hours for sleeping, eating and the morning functions.

Don't "take a last fling." It may land you in the hospital. At the best, it will probably bring you into camp in an unfit condition to take up your new duties with profit and enjoyment. There are strenuous days ahead of you and it will be good sense on your part to make reasonable preparation for them.

Look Forward with Confidence. You will find nothing required of you in the army that is beyond the powers of the every day American.

You will see clearly ahead of you, after you have read this course, the path which you are to follow. Look forward with confidence. Enter the service with the firm determination of doing your best at all times, of playing square with your superiors, your associates, and yourself, and of taking care always of your assigned duties whatever may happen.

You will find that everyone else will treat you with courtesy and fairness for that is the inflexible rule of the army. Out of that rule grows the comradeship and the attractiveness, even in the face of all dangers and hardships, that are characteristic of American army life.

## NEWS OF THE MOVIES

"SNOW WHITE"

One of the most charming pictures that has ever been seen at the Globe theatre will appear there tomorrow when Marguerite Clark stars in the Famous Players adaptation of the beloved fairy tale "Snow White" which is the Paramount attraction for the week. "Snow White" was directed by J. Searle Dawley, who has presided over all of Miss Clark's most recent successes.

You should not miss seeing this famous feature. Go in the afternoon to be sure of getting a seat.

## MOVING TROOPS WILL REQUIRE MANY TRAINS

Report of National Defense  
Committee Gives Idea of Huge  
Task to Move One Army

366 TRAINS PER FIELD ARMY

Washington, D. C., Aug. 16—Some idea of the adequacy of the equipment of the railroads of the United States for the movement of troops may be obtained from a statement prepared by the quartermaster's corps, and distributed to the railroads of the country by the special committee on national defense of the American railway association.

To move one field army of 80,000 men consisting of three infantry divisions, one cavalry division, and a brigade, technically known as a brigade of field army troops—troops auxiliary to the infantry and cavalry divisions—requires a total of 6,229 cars made up into 366 trains with as many locomotives.

These 6,229 cars would be made up of 2,115 passenger, 385 baggage, 1,055 box, 1,899 stock and 775 flat cars.

This quantity of equipment represents 7 of 1 per cent of the locomotives, owned by American railroads, 4.2 per cent of their passenger cars, and 2 of 1 per cent of their freight equipment.

The railroad equipment required to move various organizations of the army at war strength is as follows:

Infantry Regiment, including 54 officers, 1,284 men, 1,436 animals, 26 vehicles; cars required: 30 passenger cars, 8 baggage cars, 25 box cars, 72 stock cars, 9 open cars. Total, 150 cars.

Artillery regiment—Light, including 45 officers, 1,170 men, 1,167 animals, 32 vehicles; cars required: 32 passenger cars, 9 baggage cars, 25 box cars, 58 stock cars, 46 flat cars. Total, 170 cars.

Artillery regiment—Horse, including 45 officers, 1,173 men, 1,571 animals, 35 vehicles, 24 guns; Cars required: 34 passenger cars, 10 baggage cars, 25 box cars, 78 stock cars, 47 flat cars. Total, 194 cars.

Artillery regiment—Mountain, including 45 officers, 1,150 men, 1,229 animals, 24 guns; Cars required: 30 passenger cars, 7 baggage cars, 30 box cars, 61 stock cars. Total 124 cars.

Engineers—Pioneer Battalion, including 16 officers, 502 men, 165 animals, 12 vehicles; Cars required: 14 passenger cars, 2 baggage cars, 10 box cars 8 stock cars, 4 flat cars. Total, 38 cars.

Signal cars—Field battalion, including 9 officers, 171 men, 206 animals, 15 vehicles; Cars required: 6 passenger cars, 2 baggage cars, 5 box cars, 10 stock cars, 5 flat cars. Total, 28 cars.

Mrs. Sam McKendrick of Curwensville, was a Clearfield visitor and shopper today.

Mrs. G. B. Kirk of Kylertown, motored to Clearfield and shopped yesterday.

Mrs. James Cassidy of Curwensville spent the day in Clearfield.

Mr. and Mrs. Francis Graham of Philipsburg were visiting friends in Clearfield last evening.

Mrs. R. P. Morgan of Glen Richey was shopping in town today.

Mrs. Blair Sykes and brother John Leitzinger Jr., left this morning for a visit to Atlantic City.

Francis Etzweiler and Abe Jacobson took in the excursion to Atlantic City today.

# Price Smashing

Having determined upon a policy that requires the immediate conversion of a large portion of their stock into cash, the proprietors of this store have launched a price-smashing campaign without precedent in this town. Throwing aside profits, sacrificing all margins and forgetting, even, wholesale costs, every vestige of gain has disappeared from these prices. This means that the

# Cash Converter Sale

offers to the buyers of this community an unequalled opportunity for money-saving.

And so it goes all through this big stock, wherever your eyes turn, a fluttering red tag, bearing a bargain price, greets them. Every nook and corner, every inch of space presents bargain chances of appealing value to you as a buyer.

You can profitably spend hours in this store, because every minute of search will be rewarded by a decided saving upon needed merchandise. Early buyers, of course, get the greatest selections and chances at many short lots of exceptional worth. Come at once and save money by every visit.

## SAYS HOT WATER EACH DAY KEEPS THE DOCTOR AWAY

Drink glass of hot water before breakfast  
fast to wash out the poisons

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

## ENTERTAINMENTS

## NEWS OF THE MOVIES

"SNOW WHITE"

One of the most charming pictures that has ever been seen at the Globe theatre will appear there tomorrow when Marguerite Clark stars in the Famous Players adaptation of the beloved fairy tale "Snow White" which is the Paramount attraction for the week. "Snow White" was directed by J. Searle Dawley, who has presided over all of Miss Clark's most recent successes.

You should not miss seeing this famous feature. Go in the afternoon to be sure of getting a seat.

## MOVING TROOPS WILL REQUIRE MANY TRAINS

Report of National Defense Committee Gives Idea of Huge Task to Move One Army

366 TRAINS PER FIELD ARMY

Washington, D. C., Aug. 16—Some idea of the adequacy of the equipment of the railroads of the United States for the movement of troops may be obtained from a statement prepared by the quartermaster's corps, and distributed to the railroads of the country by the special committee on national defense of the American railway association.

To move one field army of 80,000 men consisting of three infantry divisions, one cavalry division, and a brigade, technically known as a brigade of field army troops—troops auxiliary to the infantry and cavalry divisions—requires a total of 6,229 cars made up into 366 trains with as many locomotives.

These 6,229 cars would be made up of 2,115 passenger, 385 baggage, 1,055 box, 1,899 stock and 775 flat cars.

This quantity of equipment represents 7 of 1 per cent of the locomotives owned by American railroads, 42 per cent of their passenger cars, and 2 of 1 per cent of their freight equipment.

The railroad equipment required to move various organizations of the army at war strength is as follows:

Infantry Regiment, including 54 officers, 1,284 men, 1,436 animals, 26 vehicles; cars required: 36 passenger cars, 8 baggage cars, 25 box cars, 72 stock cars, 9 open cars. Total, 150 cars.

Artillery regiment—Light, including 45 officers, 1,170 men, 1,157 animals, 32 vehicles; cars required: 32 passenger cars, 9 baggage cars, 25 box cars, 58 stock cars, 46 flat cars. Total, 170 cars.

Artillery regiment—Horse, including 45 officers, 1,173 men, 1,571 animals, 35 vehicles, 24 guns; Cars required: 34 passenger cars, 10 baggage cars, 25 box cars, 78 stock cars, 47 flat cars. Total, 194 cars.

Artillery regiment—Mountain, including 45 officers, 1,150 men, 1,229 animals, 24 guns; Cars required: 30 passenger cars, 7 baggage cars, 30 box cars, 61 stock cars. Total, 124 cars.

Engineers—Pioneer Battalion, including 16 officers, 592 men, 165 animals, 12 vehicles; Cars required: 14 passenger cars, 2 baggage cars, 10 box cars, 8 stock cars, 4 flat cars. Total, 38 cars.

Signal cars—Field battalion, including 9 officers, 171 men, 206 animals, 15 vehicles; Cars required: 6 passenger cars, 2 baggage cars, 5 box cars, 10 stock cars, 5 flat cars. Total, 28 cars.

# Price Smashing

Having determined upon a policy that requires the immediate conversion of a large portion of their stock into cash, the proprietors of this store have launched a price-smashing campaign without precedent in this town. Throwing aside profits, sacrificing all margins and forgetting, even, wholesale costs, every vestige of gain has disappeared from these prices. This means that the

# Cash Converter Sale

offers to the buyers of this community an unequalled opportunity for money-saving.

And so it goes all through this big stock, wherever your eyes turn, a fluttering red tag, bearing a bargain price, greets them. Every nook and corner, every inch of space presents bargain chances of appealing value to you as a buyer.

You can profitably spend hours in this store, because every minute of search will be rewarded by a decided saving upon needed merchandise. Early buyers, of course, get the greatest selections and chances at many short lots of exceptional worth. Come at once and save money by every visit.

## SAYS HOT WATER EACH DAY KEEPS THE DOCTOR AWAY

Drink glass of hot water before breakfast to wash out the poisons

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large column of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

Miss Peggy Shanahan of Pittsburgh who is visiting Mrs. J. P. Cameron at her summer home at Bloomington, entertained at bridge and sewing yesterday afternoon.

Delicious refreshments were served.

## School for Soldiers Lesson No. 3

This course of thirty daily lessons is offered to the men selected for service in the National Army as a practical help in getting started in the right way. It is informal in tone and does not attempt to give binding rules and direction. These are contained in the various manuals and regulations of the United States army to which this course is merely introductory.

### LESSON NO. 4

#### GETTING READY FOR CAMP

Your real training for your duties as a soldier will begin after you and your comrades are assembled at the training camps. However, there are a few simple things you can do during the next few weeks which will be of decided value in getting you started along the right lines.

The simplest thing, and perhaps the most useful of all, is to begin at once to practice correct habits of standing and walking. Even in civilian life a man's reputation in his community—yes, for that matter his own self-respect—is determined to a surprising extent by his bearing. The man who slouches feels like a slouch. The man who holds his head up faces the world with confidence and courage.

If this is true in civilian life, it is ten times more true in military life. For a soldier must always be strongly marked by his snap, his precision, and his vigor. He can not have these traits unless he carries himself like a soldier.

#### The Bearing of a Soldier

Few people without military training have a correct idea of what is meant by the position and the bearing of a soldier. They are apt to imagine that it means a strut or an extremely strained attitude. Or, more frequently, they think that the term can properly be applied to any erect position. The truth of the case, however, is that there is a definite procedure to follow in order to place yourself in what is known in the army as "the position of a soldier." It is the position which the dismounted soldier always assumes at the command "Attention," except as it may be slightly modified to enable him to carry properly any arms he may have in his hands.

It will be well for you to memorize paragraph 51 of the Infantry Drill Regulations, which gives the complete and accurate description of the position of the soldier. This paragraph is slightly paraphrased and simplified in the description following: Keep in mind that there are ten elements which must be properly adjusted to each other, and check yourself up to see that each one of them is properly placed.

1. Heels—On the same line and as near each other as possible; most men should be able to stand with heels touching each other.
2. Feet—Turned out equally and forming an angle of about 45 degrees.
3. Knees—Straight without stiffness.
4. Hips—Level and drawn back slightly; body erect and resting equally on hips.
5. Chest—Lifted and arched.
6. Shoulders—Square and falling equally.
7. Arms—Hanging naturally.
8. Hands—Hanging naturally, thumb along the seam of the trousers.
9. Head—Erect and squarely to the front; chin drawn in so that axis of head and neck is vertical (means that a straight line drawn through the center of head and neck should be vertical) eyes straight to the front.
10. Entire body—Weight of body resting equally upon the heels and balls of the feet.

Note especially that you are not required to stand in a strained attitude. You are to be alert but not tense.

One of the very best things you can do today is to spend fifteen minutes practicing this position getting it right. Keep this up every day until you report at camp. In the army, as in every day life, first impressions are important. The first impression you make on your officers and fellows will depend more than you probably realize, on the manner in which you stand and walk.

#### Making Yourself "Fit"

If you can devote part of your time between now and the opening of camp to physical exercise you are fortunate and should by all means take advantage of every opportunity. Climbing, jumping, gymnastic exercises, all kinds of competitive games, swimming, rowing, boxing, wrestling, and running, are all recommended as

## TOBACCO FUND IS BECOMING POPULAR

Tidy Sum Realized in Second Day of Campaign to get Smokes for Boys across sea

### FOLLOWING THE GOLDEN RULE

"Do unto others as you would have others do unto you." This is the motto of the fellows, yes and ladies too, who have come forward with their mite for the tobacco fund. Following are the contributions received to noon today:

One of the contributors writes as follows:

"Editor Progress:  
In reply to your add, you will find enclosed \$1.00 for tobacco for some soldier boy at the front. I have a boy of my own in the service, so of course I can appreciate the effort you are making to get little comforts for somebody's boy. Wish you all kinds of success in your good work."

Another writes in a poetic manner:

"Here's wishing you a Victory,  
That the world never knew,  
To the Allies of Great Britain,  
And the Red, White and Blue."

We will run the tobacco coupons until the end of the week. Get in fellows before it is too late.

## Rumor of Disaster to Sammies Again Denied

Neither Army Or Navy Department Has Any Information on Rumor

Washington, Aug. 16.—Neither the War or Navy Department has any confirmation today of disaster meeting the American troops in France. According to a rumor, 200 wounded soldiers have been taken to an English hospital.

Thus far they have received nothing that would indicate that harm has come to the American soldiers. If anything should happen it would be made public as soon as it was received. The Bureau of Public Information has received no confirmation.

### A "SEA SOLDIER" HOME ON FURLOUGH

Honore Flegat, son of Mr. and Mrs. H. J. Flegat, of Golich avenue, arrived home today from the Paris Island, N. C., training camp of the U. S. Marines, of which he is a member. Russell succeeded in getting a short furlough in order to get home for a family reunion while his brother John is home from Fort Sill, Oklahoma, where he is a regular army soldier. Russell says the "soldiers of the sea" are the real thing when it comes down to that warrior stuff, and he looks as though he was getting one hundred cents for every dollar's worth of energy he is expending while getting ready to go across the pond and pull old Von Hindenburg's whiskers.

### CALL HOOVER QUICK

Chicago, Aug. 16.—Hogs continued their record-breaking price climb to \$14.15, a hundred pounds. Twenty cents over yesterday's record price here. Pigs also went higher. Beef went 15 to 30 cents higher.

## Third Day Of Exams Behind The Average

Physical Rejections Increase And Exemption Claims Piling Up

The eternal grind incident to the recruiting of our new national army continued merrily on its way about the court house today and the third contingent of 157 prospects were just as earnestly anxious to go through the examination ordeal as their comrades who were on hand to learn their fate Tuesday and Wednesday. The exemption board and doctors were thoroughly warmed to their work by this time and shot the candidates through in record time this morning. By the time the noon recess was reached 78 had been looked over the percentages were running about the same as those of yesterday and Tuesday.

The early comers were sure a German spy had been at work on the examining quarters over night. Their opinion being based on a little accident which occurred while the board was getting ready for business. One of the doctors knocked a glass tube off the table and it fell to the floor and broke. The "sawbones" got down on his knees—a new experience—and carefully picked up every particle of glass, that is he thought he did, and since he believed he had them all safely corralled he decided to say nothing about the happening.

The doctor had not gathered up all the fragments was apparent when the first victim hopped off the scales and into the room. He discovered a part of what the doctor overlooked on the second jump. The candidate happened to be a flat-footed specimen from the Fourth ward and as Nature had been unduly kind to him when contracting his foundation and every inch of floor space was on the ground due to the lack of "dish" in his foot, he naturally picked up every splinter and particle of glass covering a considerable area. He bucked on the second hurdle and at his cry of distress all hands responded instantly. When they took in the situation the board issued a strenuous order in strenuous language not only halting hostilities but summoning the janitor with his broom on a double quick to clear away the obstructions. The President of the board remarked "these poor devils have been hopping around on tacks for two days, and it is about time they are given proper footing, and we will not hit another lick until this floor is made safe, sane and fit to tread on in bare feet."

The janitor was on the spot in a minute and after carefully combing the carpet the examinations were ordered to proceed and they did so without further incident. Up to 3:30 this afternoon the board has passed upon 141. Of this number 44 had been rejected, while some 52 exemption claims were filed, divided as follows: married 48; dependent parents, 11; aliens, 6; government service, 1; religious convictions, 1. All of today's exemption claims are not properly chargeable to today's list because a number who failed to file Tuesday and Wednesday came in and made their claims today.

Below will be found the list of names as they have been appointed by the examinations and actions of the registrants, the final figures of course depending upon the action of the exemption board after all examinations have been complete and exemptions filed.

| ANALYSIS OF WORK AUGUST 14 AND 15 |     |     |     |
|-----------------------------------|-----|-----|-----|
| Total called on lists to date     | 314 |     |     |
| Total appeared to date            | 273 |     |     |
| Known enlisted on list            | 10  |     |     |
| Known sick                        | 3   |     |     |
| Asked transfer                    | 8   |     |     |
| Not of age                        | 1   |     |     |
| Not accounted for                 | 19  | 214 |     |
| Rejected                          | 35  | 49  | 84  |
| Accepted and ask exemption        | 52  | 60  | 112 |
| Accepted and do not ask exemption | 43  | 39  | 82  |

This summary leaves the board standing with a record of 84 rejected on physical grounds; a total of 194 passed as physically fit, out of which 82 have not asked for exemption, leaving 112 claimed exemption or discharge on which the Board will have to pass. The quota for the district is officially placed at 210 to which must be added 10 per cent or 21 men, making a total on the first call of 231 men which the Board must secure. Those persons who have claimed exemption or discharge will have ten days from the date they filed the claim in which to file their affidavits in support of their claim. After the Board has received the supporting affidavits they must pass upon them within three days.

All men will be notified by mail and by posted lists as to whether they have been passed or physically rejected. Notice of the final disposition of claims for discharge and exemption will also be made by mail and posted lists. In District No. 3 the exemption board, which held its session at the school house in Orceola, accepted 452 registrants. Of these 70 failed to come up to the physical requirements and were rejected. Exemptions were asked for by 224, leaving 158 available soldiers. In addition to those examined 54 failed to report.

## BRITISH ANSWER TO PEACE PLAN WILL BE NO

Recent Inference That Belligerent Armies Is on Same Plane Before World

### NO GUARANTEE FROM GERMAN

By Ed. L. Keen  
London, Aug. 16.—With enthusiasm following the publication of the final text of the peace proposal, Benedict the British press today waded "No" to his proposal forward to the ending of the war. Conditions in the proposal are more German than the text had outlined.

Together with the peace proposal was a letter from the Papal States, Gasparri requesting that England allow the government of France and America. England evaded the prize that the Pope should place armies of Germany and the allies on an absolute plane.

There was no protest against an army which invaded Belgium, was no guarantee from Germany backing the conditions which the Pope suggests.

"The whole world recognizes the honor of the armies of both sides is safe," the Pope asserts. The honor of the army which invaded Belgium, which massacred women children, which shot Edith Cavell, which deported helpless men, women into slavery.

The rich land, the rich land, the rich land, it is to be compared to the honor of the armies of France, England which are fighting to save their homes and the whole world against an autocracy which sought to enslave the world?

The Pope's message, which is 200 words long, begins with a reference to the horrors of the war and the efforts the Vatican has made from time to time to restore peace.

Wouldn't a smoke taste good after a hard day of work in the trenches? Don't imagine that the fellows in the trenches simply sit in there and wait for a German to come along. There is as much industry right at the bottom of the six foot trench as there is in a coal mine. Positions are always changing. They fight as much with picks and shovels as they do with guns.

### UNFIT FOR PUBLIC SERVICE

Lafollette, Bryan, Butch McDevitt and Czar Nicholas.

### PEACE

The peace plan laid down by the Pope is indeed meritorious and will have due consideration in the council of nations. Coming, as it does, from one whose life is consecrated to Christian ideals and whose interest is centered in spreading the "peace on earth and good will towards men" doctrine, it will be treated with all due respect and that consideration which its sincerity demands. The text of the plan has not yet been made public and really little is known as to the detail of the proposal. Thus far there has been no mention of what part the Kaiser is to play in the plan and this is the point that all are eagerly watching. While there is much discussion on the subject or rather on the different subjects of the proposal, Americans will demand that no peace be made that does not carry with it the abdication of Kaiser William, the arch fiend who is directly responsible for the whole affair. At any rate, let us hope that the proposal does not get into Congress at this time. Congress would debate on it for six months and meanwhile France and England would suffer and our interests be jeopardized.

### RETRIBUTION

Whether you are pleased to call it poetic justice or righteous retribution, the banishment of the former Czar of all the Russias and his family to darkest Siberia is one of the most striking incidents of the war. He and his predecessors sent thousands upon thousands of men, women and children on that dreadful journey so graphically described by Tolstoi, to eke out a miserable existence on the most barren, wind-swept steppes of his dominions. In the majority of instances the alleged offense of the victims was political, and in many cases no offense whatever was committed, the arrest and deportation being the result of bureaucratic zeal to curry favor with the imperial cabal. What must be the reflections of the fallen potentate? It may be, however, that this dramatic act will tend to solidify the heterogeneous mass of revolutionists who having seized the torch of political liberty are in danger of perverting it to deeds of unbridled license or again plunging themselves into darkness. One cannot help wondering whether the All Highest in Berlin does not reflect upon the fate of a fellow-autocrat with some misgivings. And one can scarcely repress the hope that the Kaiser and his heirs might be given opportunity under conditions similar to those surrounding the ex-Czar for reviewing Prussian crimes of the past three years. Then indeed would the world be ready for negotiations for permanent peace.

### COUNTY FAIR NOTES

Arrangements have just been completed for canning demonstrations at county fair.

Kearney, of the county Fair, has made the necessary arrangements in connection with State College.

A lady will be sent from the college to give demonstrations of the

old pack plan for canning fruits and vegetables on the Fair grounds Wednesday and Thursday, Sept. 1 and 2, 1917 from 10 to 12 a. m.

Word was received today to the effect that the aviator who was to have been here for the Fair has fallen and sustained serious injuries. The Fair management expect, however, to have another man take his place so that there is little danger of losing this popular feature this year.

### Any Boy Will Be Started Right as Far as His Clothes Are Concerned If He Is in One of These Suits

Just a couple of weeks and the boys all around will be starting their new school year. Of exceptional interest to parents will be the unusually low-priced boys' suits that we are offering just in the nick of time.

### PARENTS WILL SAVE MONEY

Especially if there are several lads to be fitted out at this time. The boys themselves, who have been working for their own money to buy their clothes will appreciate the savings to be made at this time.

## SOLDIERS' LETTERS

Gettysburg, Pa.  
August 11th, 1917

Esteemed friend George H. Donly  
This Saturday evening gives me the time and pleasure to write you a short letter. I am well and enjoying myself in every respect, excepting my left arm near the shoulder. I had to take my fifth inoculation today. It is anything but pleasant. I have one more to get yet. Sometimes it is so bad with some of the fellows that they have to go in the hospital ward for two or three days. It has not been that bad with me yet, as I have not lost any time from my duty in any way whatever. I guess I am in luck so to speak. I guess the fruits of the good life are coming my way. Sometimes it is hard to gain the victory but I have never fallen in the past before me. All is required of me is to do my bit, and do it in the way it should be done. I am sure if anybody here in Gettysburg makes a failure of his duty in his great time of national and religious duty he fails only because he has no desire for anything ahead. This evening I was in the Lutheran church and also the room they have provided for the fellows in khaki. There is just so many places of these I mention here, that it is rather a perplexing problem for one to decide which one to go to to do his letter writing and also to enjoy the evening as nearly all have a library, newspapers and all kinds of good games, also a Victrola and a piano. Nearly every evening there is a jolly good time for all who care to go. Everything is free. Mostly some ladies there too, they are very good to all of us. They provide lots of music and singing, also at our camp hospital. We have a band concert quite often. It is a hard matter for one to get homesick here. I sure am satisfied to make the best of it, until God in his own good time brings peace to all nations.

Well George, I sure did enjoy my trip home. Just came in time, for since I came home there has been placed on our camp bulletin board notices stating that no passes above forty-eight hours would be given. I can if I wish, come home over Sunday. But I would have to leave on the two o'clock Sunday train so I think I will wait a while and then I can get a furlow as anything over forty-eight hours is considered a furlow and to get a furlow it must go through the general's office. If he so desires he will grant from ten to thirty days. But of course they are much harder to get. But he always looks up ones for us, as to his character and conduct if they are O. K he possibly will grant him a furlow. I should worry about my marks. If I make them good as I go, I think in a short while I will surprise some of my home folks as I am expecting another promotion in a few weeks. If it comes I will let you know of it. Today I had charge of the diet kitchen. I prepared the cats for nineteen officers and also made ready the diets for the hospital patients. There is just two of us men who cook in the diet kitchen. Mostly one of us is off duty while the other is cooking. We have a mess sergeant who gives us the menu and then it is up to us to do the rest, and furthermore it must be on time. I expect to go to Rev. Oyler's church on Sunday morning also to S. S. in the evening. I am planning to go to the Lutheran church. I like to be reasonable and go to all of the different churches I can while the chance is mine.

I hope all of you folks up in Clearfield will at least think of me fellows who have enlisted for we all loved our homes and our town just the same as those of you who still remain there. Perhaps some day we will all be back home again.

Well George, it is now 8 p. m. and I want to go up street just one square to the Presbyterian rest room for an hour or so to enjoy some games and music, so I will close hoping to get a big fat letter from you in return for this one. Give my best regards to all.

Respectfully yours,  
Oscar W. Gearhart

## GLASS OF SALTS CLEANS KIDNEYS

If your Back hurts or Bladder bothers you, drink lots of water.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours the ystrain from it 50 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

The Rowles Reunion, which is held annually, will be held two weeks from Saturday, on Sept. 1st, at Oanta. On account of weather conditions there has not been a good turn out the last few years, so please do not forget to come. A good chance to see your old friends.

## News of the Day Culled From Various Sources

Enabling Our Readers to Keep in Touch With The Outside World

## EX-CZAR AND FAMILY ARE SENT INTO EXILE

Destination Reported to be Siberia. Petrograd, Aug. 15.—Nicholas Romanoff, the deposed Russian Emperor and the members of his family were spirited away under circumstances of extreme mystery early yesterday morning from Tsarskoe-Selo to a destination which the provisional government firmly refuses to reveal.

The semi-official Russian news agency announced last night however, that it was reported the former Czar and his family were being transported to Tobolsk, Siberia.

On one except the local military and officials, especially sent from Petrograd witnessed the departure, and according to a statement made by the Associated Press by N. V. Nekrasoff, vice president of the Council of Ministers, the account published in the only newspaper which reported the departure was imaginary.

It appears that the plan was to remove Nicholas before dawn, but the train arrived at Tsarskoe-Selo several hours late. Instead of the gorgeous imperial train in which Nicholas was taken to Tsarskoe-Selo from Mohilev in March, an ordinary train composed of three sleeping cars, a dining car and several third-class coaches was sent. A second train was assigned to take the baggage and servants, fifty of whom accompanied the ex-Emperor and his family into exile.

Nicholas Appears Depressed. Nicholas was very depressed in appearance, but ex-Emperor Alexandra who was seen walking for the first time in months, seemed lively and pleased at the prospect of a change in surroundings.

In view of the need for special precautions the guard between the palace and railroad station was not composed of any single unit, but of delegations of eleven trusted men from each battalion of the Tsarskoe-Selo garrisons.

An hour after the train arrived Nicholas appeared on the steps of the palace dressed in a colonel's uniform with a khaki blouse and no decorations. He entered an automobile, accompanied by Prince Dolgorouff and Count Beckendorff, former court marshal who thus far have shared his captivity. They were followed by the former Empress Alexandra, who was accompanied by Countess Naryshkin, her close friend and former lady of the court all the four grand duchesses with their maids of honor, and finally by Alexis, the former heir to the throne, at whose side was the gigantic sailor "Derevenko" the protector of Alexis since his birth and his constant companion.

## DECLINE IN SINKING OF SHIPS OF BRITISH IN WEEK

London, Aug. 15.—A falling off in British tonnage sunk last week by mines or submarines is indicated in the weekly admiralty statement made public tonight. Fourteen vessels of 1,600 tons and over were sent to the bottom, as against 21 the previous week.

Two vessels of less than 1,600 tons were sunk last week, the same number reported the previous week. Three fishing boats met with disaster last week.

The admiralty statement follows: Arrivals of all nationalities, 2,776 sailings, 2,866.

British merchantmen sunk by mines or submarines over 1,600 tons, including one previously, 14; under 1,600 tons, including one previously, two.

British merchantmen, unsuccessful ly attacked, including five previously, 13.

British fishermen sunk, three.

## GOMPERS CAN'T SEE PEACE ON PLAN MADE BY POPE

New York, Aug. 15.—Samuel Gompers, president of the American Federation of Labor and member of the advisory commission of the National Council of Defense, says the terms of peace proposed by Pope Benedict cannot be endorsed by organized workmen because proposals from the Vatican for ending the war do not provide for the elimination of "Kaiserism" and the establishment of "Kaiserism" and the establishment of world democracy.

"Anything the Pope says must not be seriously considered by the men of labor," said Mr. Gompers today. "The proposals made by the Pope for world peace contain nothing which can be considered as foundations for permanent peace. There is nothing in the proposals that would insure he people of the world against a recurrence of this terrible war."

The Red Sox will have to make up lost ground away from home if they pull up on the White Sox. The Boston Barrys haven't been able to make much headway toward Pennantville on the home lot.

## Few Drops on a Corn or Callus

Instantly stops pain and they lift right off with fingers.

This tiny bottle holds the wonder of wonders. It contains an almost magical drug called freezone. It is a compound made from ether.

Apply a few drops of this freezone upon a tender, aching corn or a hardened callus. Instantly the soreness disappears and shortly you will find the corn or callus so shriveled and loose that you just lift it off with the fingers. It doesn't hurt one particle. You feel no pain or soreness when applying freezone or afterwards. It doesn't even irritate the skin.

Just ask in any drug store for a small bottle of freezone. This will cost but a few cents but will positively rid your poor, suffering feet of every hard corn, soft corn, or corn between the toes, or the tough calluses on bottom of feet.

Women! Keep a tiny bottle on the dresser and never let a corn ache twice.

## School for Soldiers

(Continued from Page One)

excellent methods of developing the skill, strength, endurance, grace, courage and self-reliance that every soldier needs.

There are some simple rules of eating and living, which all of us should follow regularly. They will be especially helpful to you if you put them into practice in preparing for camp life.

Perhaps the most important of these rules is to use no alcohol of any kind.

If you have been in the habit of smoking immoderately, cut down; get your wind, your nerves and your digestion into the best possible condition.

Eat and drink moderately. Chew your food well. It is advisable however, to drink a great deal of cool (not cold) water between meals. Don't eat between meals.

Keep away from soda fountains and soft drink stands. Learn to enjoy simple, nourishing food.

Accustom yourself to regular hours for sleeping, eating and the morning functions.

Don't "take a last fling." It may land you in the hospital. At the best, it will probably bring you into camp in an unfit condition to take up your new duties with profit and enjoyment. There are strenuous days ahead of you and it will be good sense on your part to make reasonable preparation for them.

## Look Forward with Confidence

You will find nothing required of you in the army that is beyond the powers of the every day American. You will see clearly ahead of you, after you have read this course, the path which you are to follow. Look forward with confidence. Enter the service with the firm determination of doing your best at all times, of playing square with your superiors, your associates, and yourself, and of taking care always of your assigned duties whatever may happen.

You will find that everyone else will treat you with courtesy and fairness for that is the inflexible rule of the army. Out of that rule grows the comradeship and the attractiveness, even in the face of all dangers and hardships, that are characteristic of American army life.

## NEWS OF THE MOVIES

## "SNOW WHITE"

One of the most charming pictures that has ever been seen at the Globe theatre will appear there tomorrow when Marguerite Clark stars in the Famous Players adaptation of the beloved fairy tale "Snow White" which is the Paramount attraction for the week. "Snow White" was directed by J. Searle Dawley, who has presided over all of Miss Clark's most recent successes.

You should not miss seeing this famous feature. Go in the afternoon to be sure of getting a seat.

## MOVING TROOPS WILL REQUIRE MANY TRAINS

Report of National Defense  
Committee Gives Idea of Huge  
Task to Move One Army

## 366 TRAINS PER FIELD ARMY

Washington, D. C., Aug. 16—Some idea of the adequacy of the equipment of the railroads of the United States for the movement of troops may be obtained from a statement prepared by the quartermaster's corps, and distributed to the railroads of the country by the special committee on national defense of the American railway association.

To move one field army of 80,000 men consisting of three infantry divisions, one cavalry division, and a brigade, technically known as a brigade of field army troops—troops auxiliary to the infantry and cavalry divisions—requires a total of 6,229 cars made up into 366 trains with as many locomotives.

These 6,229 cars would be made up of 2,115 passenger, 385 baggage, 1,055 box, 1,899 stock and 775 flat cars.

This quantity of equipment represents 7 of 1 per cent of the locomotives, owned by American railroads, 4.2 per cent of their passenger cars, and 2 of 1 per cent of their freight equipment.

The railroad equipment required to move various organizations of the army at war strength is as follows:

Infantry Regiment, including 54 officers, 1,284 men, 1,436 animals, 26 vehicles; cars required: 30 passenger cars, 8 baggage cars, 25 box cars, 72 stock cars, 9 open cars. Total, 150 cars.

Artillery regiment—Light, including 45 officers, 1,170 men, 1,167 animals, 32 vehicles; cars required: 32 passenger cars, 9 baggage cars, 25 box cars, 58 stock cars, 46 flat cars. Total, 170 cars.

Artillery regiment—Horse, including 45 officers, 1,173 men, 1,571 animals, 35 vehicles, 24 guns; Cars required: 34 passenger cars, 10 baggage cars, 25 box cars, 78 stock cars, 47 flat cars. Total, 194 cars.

Artillery regiment—Mountain, including 45 officers, 1,150 men, 1,229 animals, 24 guns; Cars required: 30 passenger cars, 7 baggage cars, 30 box cars, 61 stock cars. Total 124 cars.

Engineers—Pioneer Battalion, including 16 officers, 502 men, 165 animals, 12 vehicles; Cars required: 14 passenger cars, 2 baggage cars, 10 box cars 8 stock cars, 4 flat cars. Total, 38 cars.

Signal cars—Field battalion, including 9 officers, 171 men, 206 animals, 15 vehicles; Cars required: 6 passenger cars, 2 baggage cars, 5 box cars, 10 stock cars, 5 flat cars. Total, 28 cars.

# Price Smashing

Having determined upon a policy that requires the immediate conversion of a large portion of their stock into cash, the proprietors of this store have launched a price-smashing campaign without precedent in this town. Throwing aside profits, sacrificing all margins and forgetting, even, wholesale costs, every vestige of gain has disappeared from these prices. This means that the

offers to the buyers of this community an unequalled opportunity for money-saving.

And so it goes all through this big stock, wherever your eyes turn, a fluttering red tag, bearing a bargain price, greets them. Every nook and corner, every inch of space presents bargain chances of appealing value to you as a buyer.

You can profitably spend hours in this store, because every minute of search will be rewarded by a decided saving upon needed merchandise. Early buyers, of course, get the greatest selections and chances at many short lots of exceptional worth. Come at once and save money by every visit.

## SAYS HOT WATER EACH DAY KEEPS THE DOCTOR AWAY

Drink glass of hot water before breakfast  
fast to wash out the poisons

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

### EX-CZAR AND FAMILY

Destination Reported to be Siberia

Petrograd, Aug. 15.—Nicholas Romanoff, the deposed Russian Emperor, and the members of his family were spirited away under circumstances of extreme mystery early yesterday morning from Tsarskoe-Selo to a destination which the provisional government firmly refuses to reveal.

The semi-official Russian news agency announced last night however, that it was reported the former Czar and his family were being transported to Tobolsk, Siberia.

On one except the local military and officials especially sent from Petrograd witnessed the departure, and according to a statement made by the Associated Press by N. V. Nekrasoff, vice president of the Council of Ministers, the account published in the only newspaper which reported the departure was imaginary.

It appears that the plan was to remove Nicholas before dawn, but the train arrived at Tsarskoe-Selo several hours late. Instead of the gorgeous imperial train in which Nicholas was taken to Tsarskoe-Selo from Mohilev in March, an ordinary train composed of three sleeping cars, a dining car and several third-class coaches was sent. A second train was assigned to take the baggage and servants, fifty of whom accompanied the ex-Emperor and his family into exile.

Nicholas Appears Depressed  
Nicholas was very depressed in appearance, but ex-Empress Alexandra who was seen walking for the first time in months, seemed lively and pleased at the prospect of a change in surroundings.

In view of the need for special precautions the guard between the palace and railroad station was not composed of any single unit, but of delegations of eleven trusted men from each battalion of the Tsarskoe-Selo garrison.

An hour after the train arrived Nicholas appeared on the steps of the palace dressed in a colonel's uniform with a khaki blouse and no decorations. He entered an automobile, accompanied by Prince Dolgoroukoff and Count Benckendorff, former court marshal who thus far have shared his captivity. They were followed by the former Empress Alexandra, who was accompanied by Countess Naryshkin, her close friend and former lady of the court, all the four grand duchesses with their maids of honor, and finally by Alexis, the former heir to the throne, at whose side was the gigantic sailor "Derevenko" the protector of Alexis since his birth and his constant companion.

### DECLINE IN SINKING OF SHIPS OF BRITISH IN WEEK

London, Aug. 15.—A falling off in British tonnage sunk last week by mines or submarines is indicated in the weekly admiralty statement made public tonight. Fourteen vessels of 1,600 tons and over were sent to the bottom, as against 21 the previous week.

Two vessels of less than 1,600 tons were sunk last week, the same number reported the previous week. Three fishing boats met with disaster last week.

The admiralty statement follows:

Arrivals of all nationalities, 2,776 sailings, 2,806.

British merchantmen sunk by mines or submarines over 1,600 tons including one previously, 14; under 1,600 tons, including one previously, two.

British merchantmen, unsuccessfully attacked, including five previously, 13.

British fishermen sunk, three.

### GOMPERS CAN'T SEE PEACE ON PLAN MADE BY POPE

New York, Aug. 15.—Samuel Gompers, president of the American Federation of Labor and member of the advisory commission of the National Council of Defense, says the terms of peace proposed by Pope Benedict cannot be endorsed by organized workmen because proposals from the Vatican for ending the war do not provide for the elimination of "Kaiserism" and the establishment of world democracy.

"Anything the Pope says must not be seriously considered by the men of labor," said Mr. Gompers today. "The proposals made by the Pope for world peace contain nothing which can be considered as foundations for permanent peace. There is nothing in the proposals that would insure the peoples of the world against a recurrence of this terrible war."

The Red Sox will have to make up lost ground away from home if they pull up on the White Sox. The Boston Barrys haven't been able to make much headway toward Pennantville on the home lot.

## Few Drops on a Corn or Callus

Instantly stops pain and they lift right off with fingers.

This tiny bottle holds the wonder of wonders. It contains an almost magical drug called freezone. It is a compound made from ether.

Apply a few drops of this freezone upon a tender, aching corn or a hardened callus. Instantly the soreness disappears and shortly you will find the corn or callus so shriveled and loose that you just lift it off with the fingers. It doesn't hurt one particle.

You feel no pain or soreness when applying freezone or afterwards. It doesn't even irritate the skin.

Just ask in any drug store for a small bottle of freezone. This will cost but a few cents but will positively rid your poor, suffering feet of every hard corn, soft corn, or corn between the toes, or the tough calluses on bottom of feet.

Women! Keep a tiny bottle on the dresses and never let a corn ache twice.

## School for Soldiers

(Continued from Page One)

excellent methods of developing the skill, strength, endurance, grace, courage and self-reliance that every soldier needs.

There are some simple rules of eating and living which all of us should follow regularly. They will be especially helpful to you if you put them into practice in preparing for camp life.

Perhaps the most important of these rules is to use no alcohol of any kind.

If you have been in the habit of smoking immoderately, cut down; get your wind, your nerves and your digestion into the best possible condition.

Eat and drink moderately. Chew your food well. It is advisable however, to drink a great deal of cool (not cold) water between meals. Don't eat between meals.

Keep away from soda fountains and soft drink stands. Learn to enjoy simple, nourishing food.

Accustom yourself to regular hours for sleeping, eating and the morning functions.

Don't "take a last fling." It may land you in the hospital. At the best, it will probably bring you into camp in an unfit condition to take up your new duties with profit and enjoyment. There are strenuous days ahead of you and it will be good sense on your part to make reasonable preparation for them.

Look Forward with Confidence

You will find nothing required of you in the army that is beyond the powers of the every day American. You will see clearly ahead of you, after you have read this course, the path which you are to follow. Look forward with confidence. Enter the service with the firm determination of doing your best at all times, of playing square with your superiors, your associates, and yourself, and of taking care always of your assigned duties whatever may happen.

You will find that everyone else will treat you with courtesy and fairness—for that is the inflexible rule of the army. One of that rule grows the comradeship and the attractiveness, even in the face of all dangers and hardships, that are characteristic of American army life.

## NEWS OF THE MOVIES

"SNOW WHITE"

One of the most charming pictures that has ever been seen at the Globe theatre will appear there tomorrow when Marguerite Clark stars in the Famous Players adaptation of the beloved fairy tale "Snow White" which is the Paramount attraction for the week. "Snow White" was directed by J. Searle Dawley, who has presided over all of Miss Clark's most recent successes.

You should not miss seeing this famous feature. Go in the afternoon to be sure of getting a seat.

## MOVING TROOPS WILL REQUIRE MANY TRAINS

Report of National Defense Committee Gives Ide of Huge Task to Move One Army

366 TRAINS PER FIELD ARMY

Washington, D. C., Aug. 16—Some idea of the adequacy of the equipment of the railroads of the United States for the movement of troops may be obtained from a statement prepared by the quartermaster's corps, and distributed to the railroads of the country by the special committee on national defense of the American railway association.

To move one field army of 80,000 men consisting of three infantry divisions, one cavalry division, and a brigade, technically known as a brigade of field army troops—troops auxiliary to the infantry and cavalry divisions—requires a total of 6,229 cars made up into 366 trains with as many locomotives.

These 6,229 cars would be made up of 2,115 passenger, 385 baggage, 1,055 box, 1,899 stock and 775 flat cars.

This quantity of equipment represents 7 of 1 per cent of the locomotives owned by American railroads, 42 per cent of their passenger cars, and 2 of 1 per cent of their freight equipment.

The railroad equipment required to move various organizations of the army at war strength is as follows:

Infantry Regiment, including 54 officers, 1,284 men, 1,436 animals, 26 vehicles; cars required: 36 passenger cars, 8 baggage cars, 25 box cars, 72 stock cars, 9 open cars. Total, 150 cars.

Artillery regiment—Light, including 45 officers, 1,170 men, 1,157 animals, 32 vehicles; cars required: 32 passenger cars, 9 baggage cars, 25 box cars, 58 stock cars, 46 flat cars. Total, 170 cars.

Artillery regiment—Horse, including 45 officers, 1,173 men, 1,571 animals, 35 vehicles, 24 guns; Cars required: 34 passenger cars, 10 baggage cars, 25 box cars, 78 stock cars, 47 flat cars. Total, 194 cars.

Artillery regiment—Mountain, including 45 officers, 1,150 men, 1,229 animals, 24 guns; Cars required: 30 passenger cars, 7 baggage cars, 30 box cars, 61 stock cars. Total 124 cars.

Engineers—Pioneer Battalion, including 16 officers, 592 men, 165 animals, 12 vehicles; Cars required: 14 passenger cars, 2 baggage cars, 10 box cars 8 stock cars, 4 flat cars. Total, 38 cars.

Signal cars—Field battalion, including 9 officers, 171 men, 206 animals, 15 vehicles; Cars required: 6 passenger cars, 2 baggage cars, 5 box cars, 10 stock cars, 5 flat cars. Total, 28 cars.

# Price Smashing

Having determined upon a policy that requires the immediate conversion of a large portion of their stock into cash, the proprietors of this store have launched a price-smashing campaign without precedent in this town. Throwing aside profits, sacrificing all margins and forgetting, even, wholesale costs, every vestige of gain has disappeared from these prices. This means that the

## SAYS HOT WATER EACH DAY KEEPS THE DOCTOR AWAY

Drink glass of hot water before breakfast to wash out the poisons

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folk who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large column of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

Miss Peggy Shanahan of Pittsburgh who is visiting Mrs. J. P. Cameron at her summer home at Bloomington, entertained at bridge and sewing yesterday afternoon.

Three tables were utilized in the game of progressive bridge. The prize, which was a beautiful box of stationery, was won by Miss Gertrude Bell.

Delicious refreshments were served.
